Connect City to City

The K-UAM Confex in Incheon, the hub of Asia, aims to serve as a platform for the UAM global industrial ecosystem. It is an event that combines a conference to discuss the latest technologies and trends in the UAM field, and the exhibition to display the contents of various companies in the UAM industrial ecosystem. The K-UAM Confex, which began in 2021, is where UAM leading cities and airports establish a cooperative system and connect with each other.

This year's 2023 K-UAM Confex will be a stage where productive meetings and active discussions will take place between various companies and institutions that will make up the UAM ecosystem around the world.
